VisionServe Alliance

LEADING TO A BETTER WORLD FOR PEOPLE WITH VISION LOSS

> 66
> ""I'm a member of VisionServe Alliance for 3 things: 1) the ability to connect with my peers from around the country to continue my ongoing growth in this field, 2) to build relationships because I know that we're stronger together when we can have a united voice in this field, and 3) to know that I have friends and colleagues around the country who are working so hard to create the dignity and independence for people who are blind and visually impaired."

Denise Jess, CEO of the Wisconsin Council of the BVI

VisionServe Alliance

Building a better world for people with vision loss

Why Join VSA

VSA's purpose is to facilitate executive leadership development and strategic networking leadership opportunities in order to strengthen capacity and impact in the field of blindness and low vision.

Networking & Collaboration

We provide a forum for chief executive officers to network, share information, collaborate, and to update executive-level skills through the following ways:

- Annual Conferences
- Virtual Events
- Affinity Groups
- Volunteer opportunities on Committees and the Aging and Vision Loss National Coalition

Strengthen your Company

We believe that strong leaders make for strong organizations.

- Executive Coaching
- DEI Resources
- Webinars on timely topics in our fireld and nonprofit management
- More referrals for vision rehabilitation services through VisionRefer and listing in our Member Directory

Benefits for Members

Here are some of the ways that VisionServe Alliance Members enjoy benefits that will make you and your organization stronger and save you money:

- ✓ Discounts on conference fees
- ✓ Free webinars, Affinity Groups and Compensation/Benefits Survey

- ✓ Complimentary membership with SNPO and access to GrantStation
- ✓ Discounted Retirement and Unemployement Insurance program
- ✓ *And a lot more! Scan here for a full list of Member Benefits*

Exciting Current Projects

Big Data Reports

VisionServe Alliance (VSA) and The Ohio State University College of Optometry have partnered, embarking on a project to analyze standardized statewide data and national reports of people who are blind or have low vision. These briefings also describe the rate of chronic conditions, quality of life, and disability indicators among older people with and without blindness and low vision..
